Highlights

Extend the Range of Your Wi-Fi Network

The 300Mbps USB Wi-Fi Range Extender connects to your router wirelessly, strengthening and expanding its signal into areas it can't reach on its own, achieving speeds of 300Mbps.

Perfect Location at a Glimpse

An Intelligent signal light helps you quickly find the best location to install the range extender.

Features

Ease of Use

- Intuitive Web UI – Ensures quick and simple Installation without hassle

Maximum wireless speed of up to 300Mbps is the theoretical data rate derived from IEEE standard 802.11 specifications. Actual data throughput and wireless coverage will vary due to network conditions and environmental factors including volume of network traffic, building materials and construction, network overhead, actual data throughput rate, and wireless coverage.
