devolo Home Control

Humidity Sensor

Always the perfect room climate.

The **devolo Humidity Sensor** continuously monitors whether the temperature and humidity at home are in the ideal range. This allows it to provide a healthy room climate, contribute to general well-being and prevent mould growth.

devolo Home Control

Humidity Sensor

Product features:

- Reliably detects excessive or insufficient humidity and temperature and sends notifications via text message**, e-mail and app (push notification).
- Ensures a healthy room climate and prevents mould growth.
- Rugged and compact. Unobtrusive installation throughout the home and beyond (e.g. garage, shed, etc.).
- Versatile installation via adhesive film or screws (both in the scope of delivery).
- Long range and long battery life (up to 5 years).
- Can be combined at any time with other devolo Home Control components*.
- Future-proof thanks to standardised Z-Wave® wireless technology.
- 3-year manufacturer's warranty.

Application example:

if the Humidity Sensor reports that humidity is too high

then notification sent by app (push notification)/e-mail.

Humidity Sensor EU
