Home Control

Switch and meter socket

Your socket becomes smart.

The **devolo switch and meter socket** makes more out of your mains supply. The discreet adapter can be plugged into any power outlet in the house and enhances every connected device with useful functions.

Switch and meter socket

Product features:

- The activation and disabling of connected devices such as lamps, the coffee machine, radio, is time-controlled (devices up to 2300 watt).
- Ready to use in no time: simply plug it in between the power socket and desired device.
- Finally an end to unnecessary and high standby consumption of your devices.
- Measures the power consumption unobtrusively in the background and records it.
- Intuitive operation via an app for smartphone, tablet and computer.
- Individually expandable at any time with other devolo Home Control components.
- Future-proof thanks to standardised Z-Wave® wireless technology.
- 3-year manufacturer's warranty.

Application example:

if

the door/window contact reports an open door

then

the switch and meter socket switches the light on.
